DATABASE CONVERSION

Someone suggested that we have a representative from Advanced Solutions, Inc. (manufacturer of our *iMIS* database) on hand at the Chapter Congress, but I was fearful that our event might deteriorate into a public stoning. It wasn't clear if it would be me or the rep who would be the target for same, so I think we'll just pass.

You will find this month that the reporting is clearer, the accounting figures are accurate and payment amount correct (we're no longer crediting an extra 5 mils per member) reflecting both primary and any and all dual chapter members. We are interviewing the firm the BMW MOA uses for their iMIS work with a view towards hiring them to complete the tasks left undone when our last contact at PSINET (the rep firm assigned to us by ASI) left his employment.

Glenn McConnell of Tejas Chapter has a laundry list of tasks that he's provided that we will use, but if you can email us any other issues you continue to have with the end product, reports or labels, please do so soon so we can get the new firm working to correct the last loose strings and aggravations.

OKTOBERFEST

When all was said and done 748 people registered and despite record-breaking heat most of them seemed to have a wonderful vacation. Thanks to all the many volunteers who gave up hours and days of their vacation to ensure a great time was had by all; and especially those who arrived planning on hanging out and catching up with old friends but pitched in and helped wherever help was needed.

Nest year we will be Oktoberfesting in July at Keystone Resorts Colorado. The Rocky Mountain Chapter Oktoberfest Committee has been busy thinking up some great fun for us all. Hope to see you there!
