HMS Motorsport has been a participant and sponsor of hundreds of BMW CCA Drivers Schools around the country for 25 years. We are also the National Safety Sponsor for BMW CCA Club Racing. We are instructors, racers, and students, just like our customers. With this firsthand knowledge and experience, we have spent the last three years developing and testing new and better ways for instructors to communicate with their students.

2020 has brought unique challenges and changes to the sport we all love. With Lead / Follow now being a required model for most events, HMS Motorsport has risen to the challenge and developed a new and effective way for instructors to effectively communicate with their students. The Chaser is the affordable communication link for those looking to extract the most out of their time on the track.

Chaser Bluetooth – Intercom link, student headsets, all adapter cables are made by HMS Motorsport in our Mooresville, NC headquarters. All these items carry a full two-year warranty from the date of customer invoice! Even if the student manages to pull the plug cable out of the boom (it will not happen!) - it is covered by our warranty.

The national Board and the Driving Events Committee are continuously monitoring the situation and will provide notice of any changes as soon as they become available. As this world wide pandemic is seemingly coming under control, we urge all BMW CCA members and chapters to remain cautious and vigilant in the fight against the virus.
