

## BMW CCA HPDE And TracCom By HMS

With the recent Coronavirus pandemic many chapters, instructors, and students are looking for effective ways to protect each other while still maintaining in-car instruction. Students should be encouraged to provide their own boom or helmet electronics. Instructors should be required to have separate booms that can be provided to each student for the duration of an event. Alternatively, Chapters may choose to purchase several booms to loan or rent to participants for the duration of the event. Booms and cables can easily be sterilized between events with isopropyl alcohol.

In cooperation with BMW CCA National Driving Events Committee and with HMS Motorsport's TracCom communicator being designated "The Official Communicator of BMW CCA HPDE Programs," HMS is offering special discount programs to Chapters, Instructors, and Students to further our support of all HPDE programs.

- Instructors and students will receive a 15% discount on all TracCom products purchased directly off the HMS website.

- Chapters can purchase a one-time “Chapter Emergency Loaner Package” which includes (4) TracCom, (8) student boom, and (4) Stilo adapter cables at a discount of 35%.
- Chapters may bulk purchase a minimum of 30+ assorted TracCom, Boom, and adapter cables at a 20% discount and distribute them as they wish to their participants.

Over the past 20-30 years, instructors and students have heavily depended on poorly performing \*motorcycle\* intercoms for vital communication.

HMS Motorsport has been a participant and sponsor of hundreds of BMW CCA Drivers Schools around the country for 25 years. We are also the National Safety Sponsor for BMW CCA Club Racing. We are instructors, racers, and students, just like our customers. With this firsthand knowledge and experience, we have spent the last three years developing, testing, and updating, the most durable, reliable, and effective intercom available for in car instruction.

**TracCom V2** intercom, student booms, and all adapter cables are made by HMS Motorsport in our Mooresville, NC headquarters. All these items carry a full two-year warranty from the date of customer invoice! Even if the student manages to pull the plug cable out of the boom (it will not happen!) - it is covered by our warranty!
